Total Count:		32		

Benefits: Accessibility, Security, Affordability,
Reliability, Efficiency

"We are really thrilled with the web-based version of StudentAccess. Our counselors can now access student records, update information, and add contacts wherever they have internet access, even while working with a student in school. I feel much better knowing that our data is no longer on our institution's server and that software upgrades can be done by the StudentAccess folks as needed. The techs are always available and are very responsive to my endless questions and comments. Thanks, guys!"

- Holly Franquet, Talent Search, Fairfield University

"StudentAccess is in the business to make our lives easier! As users, we are encouraged to make suggestions as to how our database might be enhanced, and the developers listen and respond. I am extremely pleased with and quite pleasantly surprised at the customer service we are afforded as StudentAccess clients."

- Kathy Rawlings Taylor, Director, Talent Search, University of North Texas

Why StudentAccess Online?

StudentAccess Online

Software and Service Solutions for TRiO and the Educational Community

Accessibility

With web-based services, you can access your student data at any time, from anywhere, with any computer. All you need is internet access! No need to install software or request support from IT.

Security

Everything is encrypted from start to finish. All communications are SSL encrypted and all data is encrypted at our data center, including all backups!

Affordability

Most cost effective online tracking solution available. No need to purchase additional software, equipment or IT support.

Reliability

Backups are made on an hourly, daily and weekly basis.

Features:

Custom Reports

With StudentAccess you can create virtually any report in a few simple steps. Just select the fields you want, choose filters to refine your results and run the report. It's that easy!

Download to Excel

Want to work with your data in a spreadsheet? StudentAccess gives you the ability to send your custom reports to Excel!

Quick Student Input & Quick Student Edit

Pressed for time? Our Quick Input & Quick Edit features allow you to enter or change basic student information quickly, so you can focus your time on students, not paperwork.

Attendance

Track student attendance at events and activities, plus how long they participated in the activity (durations).

Annual Performance Report

StudentAccess makes generating your APR a breeze! Automatically generate student performance and demographics sections with the click of a button!

Rosters

Create Roster lists for target schools, activities, events, student groups, tutoring labs, anything you want to track.

Customizable Drop Down Lists

Customize drop downs to fit your needs. StudentAccess includes several preconfigured lists which you can edit, delete or add new options to. Additionally, there are several custom fields which allow you to add new categories you would like to track.

Drill Down Reports

A special feature available within StudentAccess reports! When you see a hyperlink within a field name, simply click on the link to get more detailed information on that field. For example, when viewing the Contacts Summary Report, clicking on any of the available services will show you a list of students who received that service along with the date, duration and counselor!
